Boero YachtCoatings presenta la linea Challenger nelle 2 versioni: **HI-SOLID & HI-TECH.**

· **Challenger HI-SOLID:** smalto poliaccrilico alto solido in grado di creare una barriera che protegge l'imbarcazione con un film compatto, non ingiallisce, è elastico ed ha elevate proprietà di resistenza agli agenti atmosferici. Grazie a queste caratteristiche Challenger HI SOLID può essere lucidato donando alla superficie una finitura di altissimo pregio in ogni dettaglio.

· **Challenger HI-TECH:** smalto poliestere uretanico di altissima qualità dotato di eccellente dilatazione che garantisce superfici speculari e brillanti che si mantengono anche a distanza di molto tempo. La caratteristica che lo rende unico è la sua elevata resistenza all'abrasione permettendo così di essere applicato sulle superfici senza subire alcuna forma di deterioramento. Le sue caratteristiche tecniche lo rendono uno smalto estremamente resistente agli agenti atmosferici ed all'ambiente marino, mantenendo inoltre elevate qualità di riempimento e un ottimo potere coprente.

La linea Challenger viene presentata in questa nuova cartella colori con una selezione di oltre 60 nuances; è inoltre disponibile a richiesta con infinite combinazioni di colori per soddisfare ogni tipo di esigenza.

Boero YachtCoatings introduces the Challenger line in the two versions: **HI-SOLID & HI-TECH.**

· **Challenger HI-SOLID:** high solid polyacrylic enamel that creates a protective, non yellowing, flexible and highly resistant barrier for the boat. Due to its characteristics, Challenger HI SOLID can be polished in order to create a perfect surface finish every time.

· **Challenger HI-TECH:** high quality polyester urethane enamel with excellent dilation that guarantees a mirror finish and a brilliant surface for a very long time. Its physical characteristics make it extremely resistant to the weather and harsh marine environment. With excellent filling and covering power and an unsurpassed resistance to abrasion, guarantees applications on all surfaces without suffering any form of deterioration.

The Challenger range is available in 60 standard shades but can also be requested in an infinite number of custom colors to fulfill any requirement.

Boero YachtCoatings présente la gamme Challenger en 2 versions: **HI-SOLID & HI-TECH.**

· **Challenger HI-SOLID:** laque polyacrylique haute performance. Créant une barrière élastique compacte, non jaunissante, très résistante aux agents atmosphériques marins.

Les caractéristiques techniques de la Challenger HI SOLID lui permettent d'être polie, gage d'une finition de grande qualité.

· **Challenger HI-TECH:** polyester uréthane haute qualité. La parfaite tension de cette laque permet d'obtenir des surfaces lisses, brillantes, inaltérées dans le temps.

Ses caractéristiques techniques en font une laque très résistante aux agents atmosphériques marins, tout en maintenant ses excellents pouvoirs garnissant et couvrant.

60 nuances sont présentées dans cette carte de coloris. Néanmoins, une infinité de couleurs est disponible sur demande afin de répondre à tous les besoins.
